

July 6, 2023

The Red River Authority of Texas is issuing a Boil Water Notice for the Lockett public water system, due to low pressure in the system. Staff is working on the issue. You may experience intermittent water or pressure loss until the system is back to full operation.

Customers should boil their water prior to consumption such as drinking, washing hands or face, or brushing teeth.

You may access the Boil Water Notice on our website at rra.texas.gov on the quick links tab.
